Table of Contents

January

Simplified System of Accounts for Average Municipal Water Works. By <i>Reeves New- som</i>	1
Experiences With Standards for Water Services. By <i>Marsden C. Smith</i>	23
Useful Life of Water Wells. Panel Discussion by <i>James C. Harding, E. W. Bennison, J. Arthur Carr, Angus D. Henderson, Arthur T. Luce, John B. Millis, Harrison E. Romine and Leon A. Smith</i>	32
Erratum	40
Aspects of Public Relations	
Relations With Customers. By <i>Philip B. Niles</i>	41
Relations With Employees. By <i>William H. Ogden</i>	42
Relations With the General Public. By <i>Elon P. Stewart</i>	45
Selecting, Training and Rating Personnel. By <i>Stephen C. Casteel</i>	47
Influence of Phosphates on Zirconium-Alizarin Method of Fluoride Determination. By <i>Dean M. Taylor and Russell E. Frazier</i>	52
Water Works Extension Problems in 1946. By <i>Elbert J. Taylor</i>	57
Discussion. By <i>N. T. Veatch</i>	61
Chlorination Experiences With Surface Supplies. By <i>S. Jacobson and M. S. Wellington</i>	65
Water Treatment in Connecticut. By <i>Frederick O. A. Almquist</i>	70
Water Treatment in Maine. By <i>J. Elliott Hale</i>	77
Water Treatment in Massachusetts. By <i>Joseph A. McCarthy</i>	79
Water Treatment in New Hampshire. By <i>Leonard W. Trager</i>	84
Forest Management for Newark. By <i>John M. Heilman</i>	87
Ground Water Supplies of Wisconsin. By <i>Harvey E. Wirth</i>	93
Abstracts of Water Works Literature	101

February

Relation of Water Rates to Living Costs. By <i>Frank C. Tolles</i>	115
Enlargement of the Baltimore Water Supply System. By <i>Schuyler C. Blackburn</i>	119
Water Works Improvements for Philadelphia. By <i>Elbert J. Taylor</i>	123
Rights of Way for Pipelines. By <i>Ingvald E. Flaa and William C. Renshaw</i>	128
Booster Pumping on a Large Closed Aqueduct. By <i>H. A. Knudsen</i>	133
Developments in Pumping Practices. By <i>H. R. Cady</i>	139
Economics of Pipeline Protection. By <i>W. R. Schneider</i>	143
Some Economic Aspects of Softening. By <i>William U. Gallaher and H. F. Weckwerth</i>	147
Treatment Plant Operating Costs. By <i>Kenneth V. Hill</i>	151
Losses in Distribution Systems. By <i>Dewey W. Johnson</i>	157
Program for Routine Testing and Maintenance of Meters. By <i>G. L. Williams</i>	168
Tentative Standard Specifications for Cold Water Meters—Fire Service Type—7M.4-T	173
Abstracts of Water Works Literature	184

March

Selection of Customer Service Meters. By <i>Samuel F. Newkirk Jr.</i>	195
Housing Expediter Priorities Regulation 7	199
Contemporary Chlorination Practices. By <i>Harry A. Faber</i>	200

Ortho-tolidine Titration Procedure for Measuring Chlorine Residuals. By <i>C. H. Connell</i>	209
Discussion. By <i>Noel S. Chamberlin</i>	218
Author's Closure	219
Tuberculation Measurement as an Index of Corrosion and Corrosion Control. By <i>Edwin W. Barbee</i>	220
Effect of Litigation on Water Appropriation in California. By <i>Cornelius T. Waldo</i> ..	231
Repairing a Surface Wash System. By <i>Herbert C. Schmitt</i>	235
Yuma and the Colorado River. By <i>C. G. Ekstrom</i>	245
Waterproofing Concrete Structures. By <i>Nathaniel J. Kendall</i>	253
Financing Main Extensions. By <i>Donald D. Heffelfinger</i>	257
Publications Report	262
Report of the Committee on Water Works Practice	265
Report of the Audit of Association Funds	273
Abstracts of Water Works Literature	279

April

Expansion of District of Columbia Water System. By <i>Edwin A. Schmitt</i> and <i>Otto D. Voigt</i>	291
The Role of Algae in Corrosion. By <i>Henry C. Myers</i>	322
Reduction of Municipal Taxes and the Support of Public Services. By <i>Carl H. Chatters</i> ..	325
Financing Improvements by Revenue or General Obligation Bonds. By <i>William S. Evatt</i>	331
Studies on False Confirmed Test Using B.G.B. and Comparison Studies on Lauryl Sulfate Tryptose Broth as a Presumptive Medium. By <i>Miriam S. Shane</i>	337
Colorimetry and Photometry in Water Analysis. By <i>M. G. Mellon</i>	341
Stream Pollution Control in Tennessee. By <i>R. P. Farrell</i>	352
Effect of Density Currents Upon Raw Water Quality. By <i>M. A. Churchill</i>	357
New Filtration Plant at Midland, Pa. By <i>H. F. Holloway</i>	361
Discussion. By <i>M. A. Slone</i>	365
Ground Water Studies in Wisconsin. By <i>F. C. Foley</i> , <i>W. J. Drescher</i> and <i>G. E. Hendrickson</i>	369
Well Cleaning and Rehabilitation. By <i>H. P. Wenrick</i>	380
Radio Communication for Water Works. By <i>Raymond G. Ridgely</i>	384
Abstracts of Water Works Literature	385

May

Water Supply Development in the Northern Republics of South America. By <i>George C. Bunker</i>	397
Water Supply Activities in Venezuela. By <i>M. Vilorio Lugo</i>	411
Sanitation for the American Forces in Calcutta. By <i>D. C. Teal</i>	416
Geochemical Alteration in Ground Waters of the Los Angeles Coastal Plain. By <i>Carl Wilson</i>	423
Water Development Plans in California. By <i>Edward Hyatt</i>	430
Water Resource and Watershed Management Research in the Southeast. By <i>Joseph A. Lieberman</i>	443
Watersheds and Reforestation. By <i>George W. Dean</i>	455
Application for Radio License	458
Cause and Prevention of Accidents. By <i>Harold F. Webb</i>	459
Employee Training and Customer Relations. By <i>E. E. Jacobson</i>	464
Revision of Current Type Meter Specifications	466
Clinker Remover for Lime Slakers. By <i>A. E. Howell</i>	467
Value of Hydrant, Valve and Meter Standardization. By <i>George J. Van Dorp</i>	470
A Style Manual for Journal Authors	473
Abstracts of Water Works Literature	489

June

209	Reconstruction of the Halifax High Service Reservoir. By <i>R. M. Doull</i> and <i>J. D. Kline</i>	503
218	Care of Power Tools and Equipment. By <i>D. M. Van Norman</i>	515
219	Mutual Aid Program for Peacetime. By <i>Earl Devendorf</i>	520
220	Proposed Amendments to A.W.W.A. Constitution	526
231	Legislative Protection for Indiana Ground Waters	527
235	Errata— <i>Standard Methods</i> —Ninth Edition	528
245	Water Quality Litigation (<i>Holder v. Windsor Utilities Com.</i>)	529
253	Industrial Use of Streams. By <i>L. L. Hedgepeth</i>	532
257	Survey of Unaccounted-for Water in Minnesota. <i>Minnesota Section Committee Report</i>	539
262	Erratum—A.W.W.A. Specifications 7A.5—1940	542
265	Office Procedure in a Small Water Works. By <i>F. G. Gedge</i>	543
273	Comparative Study of Swedish and American Water Treatment Practices. By <i>Harry L. Schein</i>	547
279	Corrosion Control With Calgon. By <i>Owen Rice</i>	552
	Transportation Tax Exemption	560
	Bactericidal Properties of Chlorine Dioxide. By <i>G. M. Ridenour</i> and <i>R. S. Ingols</i> ...	561
	Analysis of Pipe Flow Formulas in Terms of the Darcy Function <i>f</i> . By <i>Leo Hudson</i>	568
	Abstracts of Water Works Literature	595

Binding of the Year's Journals

Through the co-operation of the Library Binding Institute, an organization of binderies which specializes in binding publications into volumes, arrangements have been made to give information and assistance to A.W.W.A. members who want to have their JOURNALS bound. This work may be done in accordance with standards of materials and construction required for durability, service and accessibility by college, reference and public libraries. The American Library Association and the Library Binding Institute have co-operated in promulgating "Minimum Specifications for Class A Library Binding" based on research and production and performance experience.

A committee of the American Library Association has certified responsible and reliable library binderies which have proved able to meet these specifications. To obtain standard quality binding, simply request Class A binding at any certified bindery. In obtaining price quotations, state the three dimensions of the volume.

Names and addresses of certified binderies in your area are available from the Library Binding Institute, 501 Fifth Avenue, New York 17, N.Y. Before sending copies to the bindery:

1. Check for missing issues and check each issue for defects, missing pages, etc. Be sure to include the volume index.
2. Tie the twelve issues together carefully so that nothing is crumpled or torn.
3. Write out definite instructions giving your preferences on the following points:
 - a. Color of binding (one of the following standard colors should be selected: dark green, dark blue, black, brown or medium red).
 - b. Whether the advertising sections and/or paper covers are to be bound into the volume.
 - c. An exact copy of the text to be lettered in gold on the backbone.

A common form is:

Journal—1 $\frac{3}{4}$ in. from top Vol. 00—4 $\frac{1}{4}$ in. from bottom

A.W.W.A.—2 $\frac{1}{4}$ in. from top 1900—3 $\frac{3}{4}$ in. from bottom

- d. If you have had JOURNALS bound before and want your set to match as closely as possible, send a previous volume as a sample. If you want an approximate match, send a "rubbing" of the lettering on a previous volume and indicate the color.

If satisfactory arrangements cannot be made, or if there is any difficulty, advise the A.W.W.A. office and steps will be taken in co-operation with the Library Binding Institute to assure you proper service.
